

Your Mission Matters

Manage Your Entire Workforce from One Accounting System

Using the Human Resources, Payroll, and Employee Web Services modules, you can manage your entire workforce directly from Abila's true fund accounting™ systems, MIP Fund Accounting™ and MIP Advance™. These tools are designed specifically for the unique reporting and communication challenges nonprofit and government organizations face every day.

STREAMLINE WORKFLOW PROCESSES

The Human Resources module provides quick and easy reporting (including FMLA and EEO), tax form population, and complex benefit and leave calculations. Additionally, with the HR module, you can create and streamline workflows at your organization, scheduling pay raises, review dates, and benefit plan adjustments.

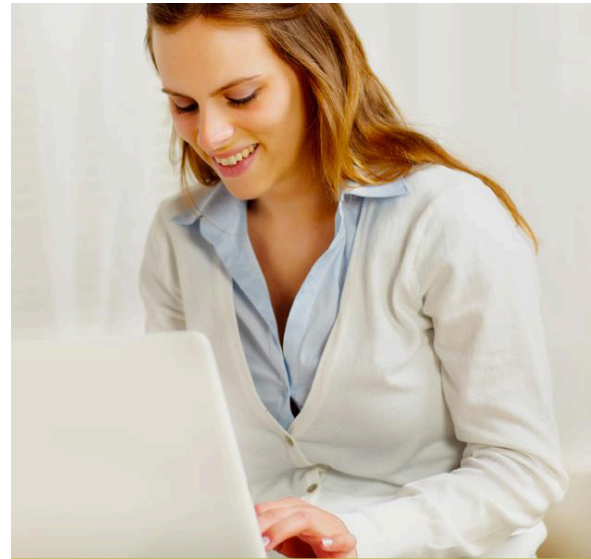

ON-DEMAND EMPLOYEE INFORMATION

With the **Employee Web Services module**, employees and managers will have 24/7 self-service Web access to their pay stubs, timesheet entries, benefits information, and other important employee messages.

HELP EMPLOYEES MOVE FORWARD

Using the **Payroll module**, you can produce timely and accurate pay for the employees who propel your organization's vision.

With native integration with MIP, you can generate fully allocated accounting entries and easily retain comprehensive employee records for both State and Federal forms.

True fund accounting™ meets the complex fund tracking and flexible reporting requirements that are vital to a nonprofit's continued ability to serve its community.

Abila MIP Fund Accounting™

Human Resources, Payroll, and Employee Web Services

With the ability to control the tools and features you need to manage your organization, you can eliminate duplicate entries of employee information between multiple solutions and focus more time on advancing your mission.

HR Management

- Maintain and store employee history
- Manage benefits, leave, and default timesheets
- Ensure data is auditable and secure
